

A VISION FOR CONNECTING ATLANTA'S
FLINT RIVER HEADWATERS AND THE AEROTROPOLIS

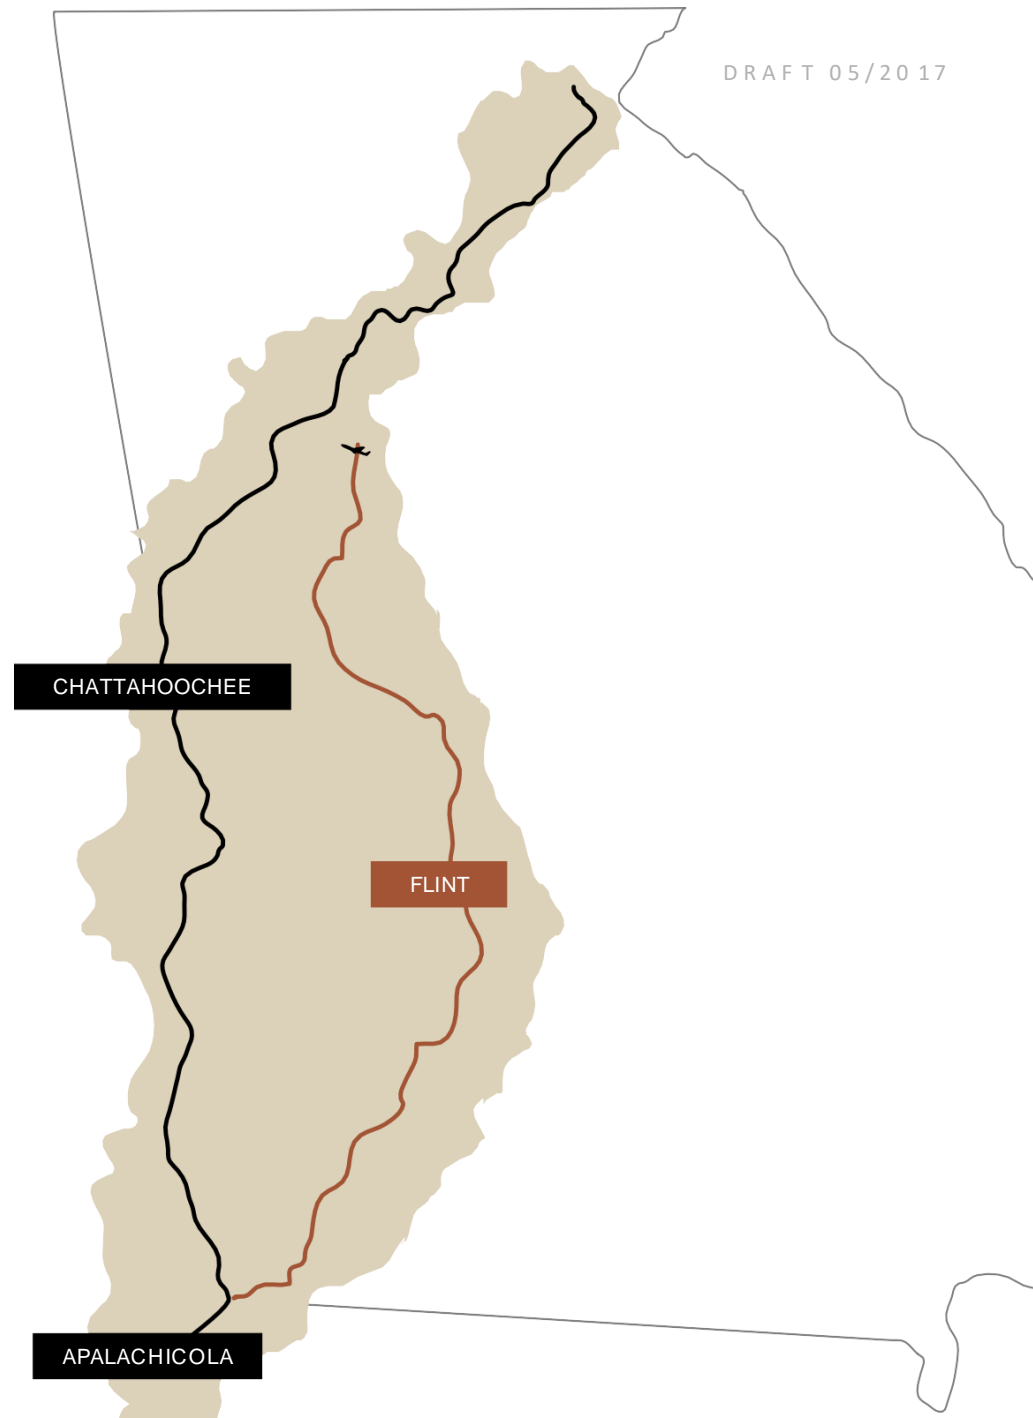

Finding the Flint

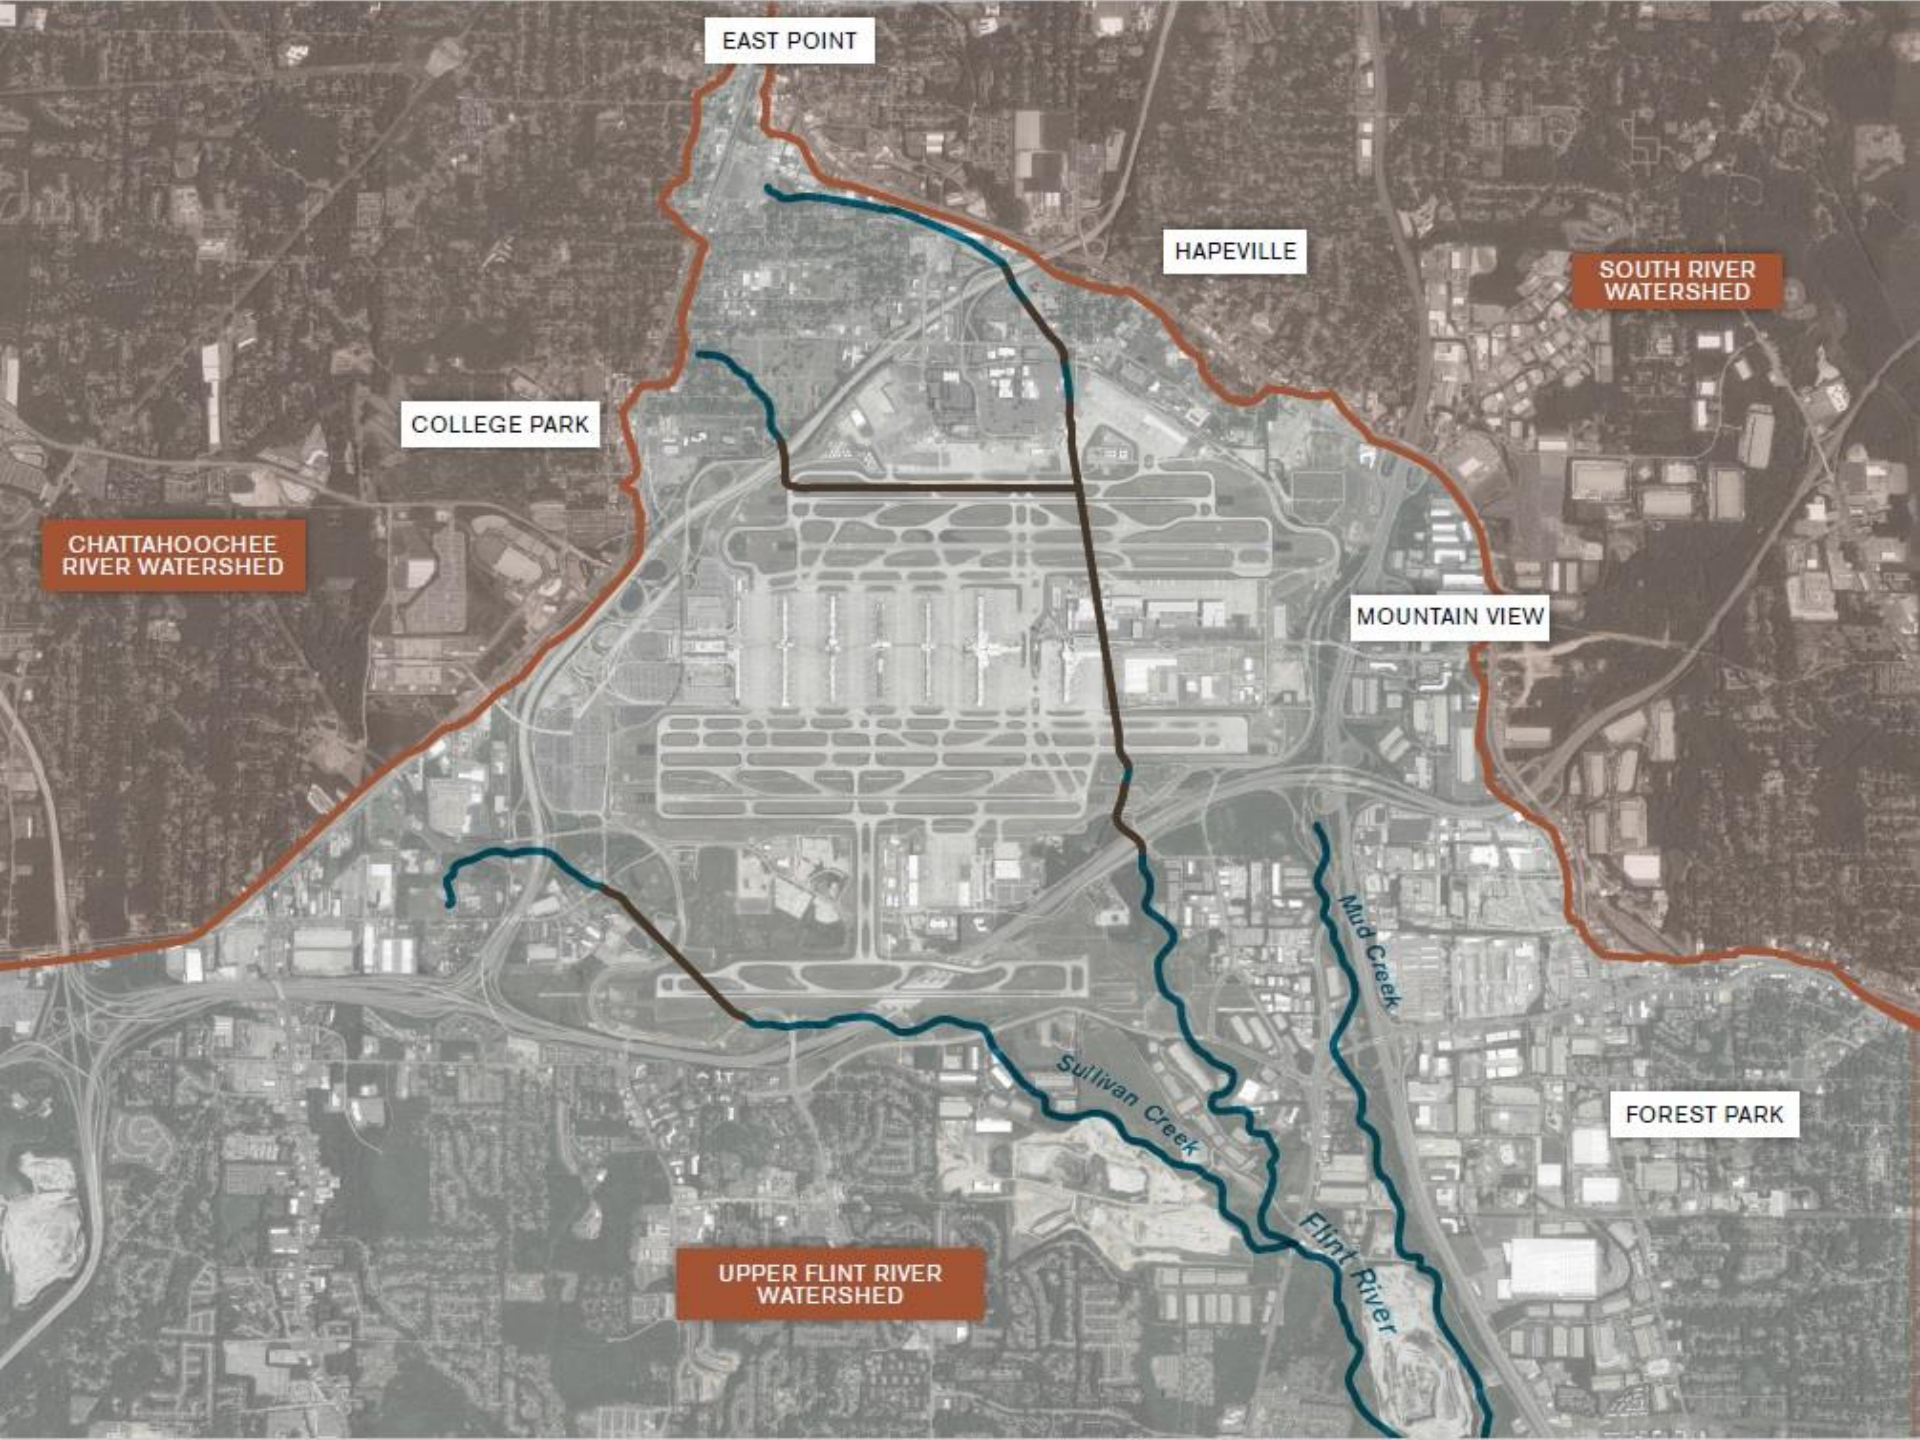

There's a river down here . . .

It joins the
Chattahoochee
to create
Florida's
Apalachicola
River and the
contested ACF
river basin.

Flint River

Upstream, where the Flint's problems begin, most people don't even know that the river exists.

How can we turn this challenge
into an opportunity?
